

04 Activate Yourself - 14 10 2026

God does not only wants you to know what He wants, He also wants you to ask what He wants. Do pay careful attention to my words. We'll say again, God does not only want you to know what He wants, He also wants you to ask what He truly wants. God does not only want you to know "how," He also desires you to seek "how?" Do you not know you are a creator being, and do you not know you have free will, only be sure all about you is pleasing to God.

God judges because you have free will to misbehave and you also have free will to improve more on what He desires of you. Remember the parable of the talent where the one who made five extra talent was given an extra one talent? This is telling you that you can improve your God story, do not imitate others, God has a standard for you but He also wants you to improve on it. Do not be a passive creation, be an active creation, do not be passive towards God, become active, when you are active, God will become active towards you. The activeness of God towards you will be in measure of how active you are towards Him

So many people do whatever they want, and so many who believe in Jesus are not only doing whatever they want, but rather in addition they are also waiting for God to act. The Lord God Almighty made the children of Israel to go out and pick the food by themselves, the same way, Jesus said "seek and you'll find!" Why are so many become lazy in thinking deep when it comes to seeking/searching God in their heart. At times you can make the voice of God become a curse to you, because you are always waiting for Him talk to you in a very clear manner when He is in actuality waiting for you. He is always waiting for you at the place of "seeking." You dig by yourself, then He'll reveal Himself to you more

Passiveness is a curse. Laziness to seek/think deep shows that you don't truly love. Do not be passive, when you are active, God will become active towards you

And yes, do not make anyone become your God. Man can teach you how to have relationship with God, but only God can teach you how to walk in the path He has created for you. No man can teach you how to journey in the path God has for you. I'll say again; man can teach you relationship with God, but only God can teach you how to walk in the path He has created for you. So, you must know God personally for yourself
